FREE WORKSHOPS FOR PARENTS AND EDUCATORS SPONSORED BY THE PEAL CENTER

Mini-Series on Developing Strong IEP's and Working with School Teams

Beginning with the End in Mind

The PEAL Center is an organization of parents of children with special health care needs and disabilities reaching out to assist other parents and professionals.

Washington &
Beaver Counties!

There must be 10 registrants to hold the session. You will be notified if session is cancelled due to weather or low registration.

Mini-Series on Developing Strong IEP's and Working with School Teams

Beginning with the End in Mind

Part 1 Developing a Strong IEP

This session explores the parent's role in the IEP process. Parents will learn the basics of their child's right to special education services, the process of developing special education plans, and the parent's role in developing an IEP that is responsive to the goals written for their child. Bring your son or daughter's IEP and begin the process of translating dreams you have for your child's future into concrete elements that can be incorporated into an IEP.

Part 2 Working Effectively with Your School Team

This session will provide parents with the tools necessary to work collaboratively with school teams. Questions that will be answered include, "How can I work with my school district to develop education services for my child that are based on high expectations and prepare my child for a productive life?" and, "How can we build a school team committed to classrooms where all students participate in learning?"

Part 3 Your Parental Rights

This session will address parental rights in the special education process. Particular emphasis will be given to the Procedural Safeguards Notice received annually by all parents. This presentation also includes a brief overview of the differences between IEPs and 504 plans.

Washington, PA
